# NatureLine Large Tools

## High Quality Gardening Tools

No garden can do without a spade and a fork. They form part of the basic equipment that every gardener needs.

The new GARDENA NatureLine large tools with high-quality wooden handles makes digging, removing, loosening and transplanting of soil easy and convenient.

All handles are FSC® Certified.

### The perfect grip

Ergonomically shaped D handle can be held with both hands comfortably at any point.

### Comfortable handling

Handle made from Ashwood (FSC® certified) guarantees a comfortable grip and working posture.

### Comfortable digging

The sharp blade is made from hardened quality steel and guarantees an easy penetration into the ground when digging or lifting soil.

### Wide foot tread

Wide foot tread with special profile guarantees perfect transmission of power and secure footing.

NatureLine Spade (17000-20)

NatureLine Pointed Spade (17001-20)

NatureLine Digging Fork (17002-20)

The robust tools are duroplast coated and are made from high quality steel and plastic. The garden tool range is perfect for outdoor weeding, removal of weeds, leveling of soil and much more.

The NatureLine range is perfect for various outdoor requirements and consists of the following tools:

## NatureLine Grubber and Garden Hoe

For loosening and ventilating the soil without damaging roots .

## NatureLine Adjustable Rake

Ideal for raking up leaves, grass cuttings, aerated material and other garden waste. Adjustable 30 - 50cm galvanised spring steel tines for small to large garden debris.

## NatureLine Rake

Ideal for raking, levelling off plant beds and for soil cultivation.

Working width of 36 cm (14 tines) with sturdy tines made from quality steel.

### *Tips and tricks*

#### **Mulching raised beds**

A two-centimetre thick mulch in raised beds reduces weed growth and keeps the earth moist for longer. To improve soil ventilation under the cover, it is a good idea to loosen the soil in the bed weekly. At the latest after a heavy rain using a NatureLine soil garden tool for cultivating is recommended. The trick is to do this so skilfully that the mulch layer is preserved as far as possible.

## GARDENA - your advantages

### 1. Quality

GARDENA products are known for their extremely high quality and reliability. The entire production chain is subject to stringent quality guidelines.
